Sport Positive Summit 2022 Agenda For Virtual Attendees

Thanks to Our Partners

”
As a partner at the 2021 Summit, we were delighted by the overall results. There were dozens of meaningful conversations throughout and many requests at the virtual booth. We came away with new friends and advocates - it's a great COMMUNITY - not just a conference.

Brella will open a minimum of one week before the Summit, to enable you to set up your profile and see who else is attending.

Although the Summit takes place on 4-5 October, and those going to Wembley will prioritise in-person networking on those days, there are virtual meeting spots available on 6-7 October too, to enable meetings

Given the time zones of those joining the virtual Summit we are not arranging live virtual breakout sessions in place of the ones happening at Wembley

Session recordings will be available for one month after the Summit via Brella
