How points are allocated	2 points given if all energy at stadium, training facility and offices are provided from renewable source (via utility or mix of utility and onsite generation)	2 points given if club has a systemic energy efficiency plan in place across their sites, via building/energy management systems, BREEAM standards, ESOS compliant etc	2 points available if clubs both actively and visibly advocate for fans/staff to use sustainable transport options and give them an incentive to do so - i.e. free travel in fan zones, bike to work scheme, money off public transport	2 points available if clubs have a current policy/systemic effort in place that is already reducing or has entirely removed all single use plastic from their organisation - across stadiums, training facilities and offices.	2 points available if a club has put in place a systemic waste management programme that reduces waste, diverts at least 95% of waste from landfill and ensures all waste is recycled/works within the circular economy across all sites - stadium, training facilities and offices	2 points available if club has a policy/systemic effort in place that is currently reducing and enabling water reuse from their organisation - across stadium, training facilities and offices. To include water recycling, reduction and reuse where applicable.	3 points available if club offers sustainably sourced, vegan food options across all sites; to fans on the stadium concourse for every game and hospitality and for staff across all sites	3 points available if club has a publicised sustainability policy/strategy that shows commitment to long term, holistic sustainability efforts, and reports on progress. The policy and associated efforts must be available on the club's main website
	1 point for more than 40% of energy being provided from renewable source across all clubs sites	1 point given if isolated energy efficiency efforts have been made; i.e. LED lighting or building management system is not in place across all sites	1 point given if clubs actively and visibly advocate for fans and staff to sustainable transport options; public transport, active transport, bike racks, carpooling etc but no incentive is given to fans to travel sustainably	1 point available if efforts to remove single use plastic are only focussed on individual products, or don't take place across the whole club's operations	1 point given if clubs have a waste diversion/recycling system in place but it doesn't lead to 95% diversion from landfill, or doesn't operate across all sites	1 point available if efforts to conserve/reuse water are isolated efforts across 1 or 2 areas, or don't take place across the whole club's operations, 1 point if a strategy is in place to	2 points given if locally sourced vegan food is available, but not across all sites	2 points if the club regularly publishes climate/sustainability club news and campaigns. 2 points given if the club has a page on the website focussed on sustainability and shows sustainability/climate change focussed campaigns. 2 points given if the club has a publicised sustainability policy/strategy but does not advise what actions have actually been taken in regard to aims set out in the policy
	0 points given if club has less than 40% of energy derived from renewable sources or cannot show that any of their energy is provided via renewable sources	0 points given if club cannot show that they have any energy efficient efforts in place	0 points given if clubs don't actively or visibly advocate for fans and staff to travel sustainably	0 points given if clubs have not succeeded in reducing or removing single use plastic from their operations	0 points if a club does not have a waste management programme/doesn't recycle or attempt to divert waste from landfill	0 points if a club doesn't currently attempt to conserve or recycle water	1 point given if vegetarian, locally sourced food is available at the stadium for fans, or if all foods are sustainably sourced	1 point given if the club has communicated climate change/environment/ sustainability club news in the past 6 months
			1 Bonus Point - if club tracks and reports on the percentage of fans taking various modes of transportation to games				0 points given if food is not sourced sustainably, and no plant based food options are available on any sites	0 points given if clubs do not actively communicate on sustainability through their own comms channels, club news articles, or any coverage is more than 6 months old
 <h2>EPL Sustainability Table – Points Key</h2>								1 bonus point - if club actively engages fans towards positive environmental behavioural change that reduces emissions beyond the stadium
								1 Bonus Point - If club is a signatory to UN Sports for Climate Action Framework
